

**FREE to the Public**

**A presentation and discussion on effective and humane solutions to common wildlife problems**

# **Living with Wildlife In Loudoun County**

**Offered by the Department of Animal Services in cooperation with Department of Game and Inland Fisheries and the Loudoun County Health Department.**

*Are you having problems with raccoons, groundhogs, skunks or other urban wildlife? Some wildlife are both adaptive and opportunistic, which allows them to live quite well in close proximity to people. Conflicts often develop when people and wildlife try to live within the same landscape. Attend one of the presentations listed below and learn how to safely cohabitate.*

## **Presentations will cover:**

- Normal and abnormal wildlife behaviors
- How to prevent wildlife problems
- Solutions to wildlife issues
- Roles of the agencies that deal with wildlife

## **Presentation Schedule:**

- **Tuesday, April 26, 2011**  
Ashburn Library  
43316 Hay Road, Ashburn, VA  
In the Story Time Room
